Student Organization Spotlight

Institute of Electrical and Electronics Engineers (IEEE)

IEEE is the world's largest professional society for the advancement of technology. The membership consists of scientists and engineers of all fields from around the globe. The organization as a whole is currently involved with developing many new emerging technologies and developing the standards behind them. The VCU student branch is involved with numerous activities and projects throughout the university, including this year's SoutheastCon competition. Please feel free to browse IEEE's web site (<http://www.vcuieee.org/>) to get a better idea of what IEEE is and what they do. If you share the passion IEEE has for science and technology, do not hesitate to join the organization and get involved with the exciting activities they have planned.

Student Success Stories

National Black Society of Engineers (NSBE)

Student's Name	Major	Class Year	Position/Employer
Erika Graham	Mech Engineering	Senior	Mechanical Engineer Exxon Mobile
Celisa Hudson	Mech Engineering	Senior	Edison Engineering Development Program General Electric Transport
Andrew Lipford	Electrical Engineering	Senior	Associate Embedded Hardware Engineer ManTech
Russell Moore	Electrical Engineering	Senior	Electrical Engineer I Northrop Grumman
Elisha Frye	Chemical & Life Science Engineering and Chemistry	Senior	Field Engineer E.I. DuPont de Nemours and Company Incorporated
Tayloria Adams	Chemical & Life Science Engineering	Junior	Monomer Tech Co-op Honeywell International
Yaw Owusu-Boamah	Electrical Engineering	Junior	Intern Research in Semiconductor Contact Penn State University
Calvin Cropper	Computer Engineering	Junior	Systems Engineer Anhieser Busch
Amber Smith	Chemical & Life Science Engineering	Junior	Fundamental Research Grp Afton Chemical Corp
Erica Freeman	Chemical & Life Science Engineering	Junior	Chemical Eng Intern Johnson & Johnson
Ericka Cottman	Electrical Engineering	Junior	Student Technical Lockhead Martin
Akeem Baker	Computer Science	Junior	Technical Analyst JPMorgan Chase
Carnell Hunter	Electrical Engineering	Sophomore	Intern Phillip Morris
Jasmine DeCarish	Computer Science	Sophomore	Software Development Intern NASA Goddard Center

Mike's Comments

For those graduating and embarking on a career you are now entering phase one. It is the beginning. Act professionally, work hard and learn all you can, be a team player and be willing to express your positions. Whether your career is through multiple positions with one company or with several companies, begin now to leave a trail of achievement and earned respect. It will serve you well.

Juniors—now is the time to begin your quest for that first full time position!
Prepare—and plan to have your position in place by 12/31/08
